

**DHS Training Course Available**  
***Workplace Security Awareness***  
No-Cost Critical Infrastructure Workplace Security Training

The Department of Homeland Security announces the availability of IS-906, *Workplace Security Awareness*, a no-cost training course developed by the Office of Infrastructure Protection Sector-Specific Agency Executive Management Office.

Access IS-906 on the Federal Emergency Management Agency Emergency Management Institute Web site: <http://training.fema.gov/EMIWeb/IS/IS906.asp>.

The online training provides guidance to individuals and organizations on how to improve security in the workplace. The course is self-paced and takes about an hour to complete. This comprehensive cross-sector training is appropriate for a broad audience regardless of knowledge and skill level. The course promotes workplace security practices applicable across all [18 critical infrastructure sectors](#). The training uses innovative multimedia scenarios and modules to illustrate potential security threats. Threat scenarios include:

- Access & Security Control
- Criminal & Suspicious Activities
- Workplace Violence
- Cyber Threats

The course also features interactive knowledge reviews, employee tools, and additional resources.

Upon completion of *Workplace Security Awareness*, employees will be able to:

- Identify potential risks to workplace security
- Describe measures for improving workplace security
- Determine the actions to take in response to a security situation

A certificate is given to participants who complete the entire course.
