Certified Venue Professional IAVM Voluntary Certification Program Policies and Procedures	11

In accordance with the requirements of the Americans with Disabilities Act of 1990, accommodations in testing can be made if the need is documented for the learner.

Section 309 of the Americans with Disabilities Act (ADA) requires certification and testing organizations to comply with the Act. This section provides that:

“Any person who offers examinations or courses related to applications, licensing, certification, or credentialing for secondary or post-secondary education, professional, or trade purposes shall offer examinations or courses in a place and manner accessible to persons with disabilities, or offer alternative accessible arrangements for such individuals.”

The IAVM Certification Program complies with the Americans with Disabilities Act by ensuring that persons with disabilities have physical access to the testing facilities used by the Program. Further, the Program administrator will make accommodation in the way the examination is administered for those persons who have disabilities. The application forms of the IAVM Certification Program provide space for indicating a disability and solicit suggestions from the Candidate as to how he/she can be best accommodated. Persons with questions concerning the Americans with Disabilities Act as it relates to the examinations given by the IAVM are encouraged to contact the Certification Program Administrator.

THE CVP MESSAGE: SKILL, COMMITMENT, GROWTH

The Certified Venue Professional (CVP) program was created by IAVM in 2015 to recognize the competence of mid-level to senior level managers of public assembly venues as well as assist in creating a professional development road map.

The CVP designation says three important things about an individual: he or she is a capable professional, is committed to the industry, and is pledged to continued professional growth and development. Venue professionals who earn the CVP designation are recognized, by those inside and outside the industry, as skilled in their profession.

The basic purpose of the voluntary certification program is to provide additional incentive for professional improvement in the public assembly venue management industry, to assure recognition for those who attain certain specific standards, and can lead toward the attainment of the Certified Facilities Executive (CFE) designation.

The certification program offered herein is provided to encourage professional development and to recognize achievement. It is *not* the purpose of the certification program to determine who shall or shall not engage in the management of public assembly venues. It is recognized that there are many who are successfully engaged in the public assembly venue industry who are not interested in applying for either the CVP or the CFE designation.

There is a renewal requirement for CVPs to maintain the Certified Venue Professional designation. Every three (3) years, CVPs are required to submit evidence of continuing education and professional development.
